ASME or DIN adaptable
studding outlet welded to
endplate, supports the piping

Double o-rings in the connection
plate provide superior sealing
capability. This prevents wetting /
corrosion of steel components.

Liner Pipe has been
redesigned as one piece
without threads for a
leak-proof operation.

Locally Represented by:

U & R Stamp

Codes: ASME Sec.VIII, Division I (U and R Stamps)
China Code – SQL Approved
KGS Approved
